DTR Staff Meeting
29 July 1971

25X1A

Mr. Cunningham mentioned that there was no DD/P meeting this week. DD/S meeting was of such length that he will circulate the minutes of the meeting.

Just some quick notes which may be in those minutes:

a. The DCI has no intention of asking for more space or people. He is confident the FY 72 budget will be accepted pretty much the way it is. If anyone wants personnel increases they must be justified to show what they will give up in order to get.

25X1A

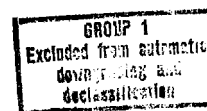

b. Employment of Blacks: Mr. Cunningham thought that what was being done in OTR, that is soliciting opinions, was OBE. Wattles described his meeting with Colonel White, [REDACTED] Harry Fisher who discussed the papers submitted. (The papers submitted included MAG and the young study group.) He cited that only three out of 27 black applicants EODed last year, though there were 431 applicants. (Mr. Cunningham told of his talk with [REDACTED] - a Career Education Award winner going to Stanford -- and stressed the point that blacks take a long time to get clearances.) Mr. Cunningham stressed that recruitment should begin early in the senior year. He mentioned that blacks would be used to accompany whites as recruiters, but also mentioned that a problem is that recruiters are older men; younger ones needed.

25X1A

c. Pending legislation will be sent out in a memo from Maury, and Mr. Cunningham asked that when we read them if any training is identified with the bill let him know. Bob [REDACTED] is DDS focal point for this.

d. Nixon Library. DD/S guidelines passed out (DTR said he had some additional recommendations for guidelines). No more was said about OTR sending any other comments on the guidelines. He wanted the senior officer courses described as history, but just a paragraph; no statistics. (Action?)

25X1A

e. Effective immediately there will be spot checks of brief cases by OS people, not the guards. Note: [REDACTED] mentioned that [REDACTED] had attended a meeting which resulted in telling those who were there that the Agency is clamping down on code-word clearances. There is also a paper in process outlining procedures to query all retirees about the possibility of having classified documents in their possession.

25X1A

f. Lots of commendations: for Logistics, for [REDACTED] who lectured at NSA, and for Commo.

g. Demographic Item. Harry Fisher had some statistics on average age of death-on-duty over the past four years: 46 - 47. Two leading causes of death: cardiovascular and malignancy. Forty plus deaths in CIA last year.

DTR also noted that 63% of CIA EODs stay through a career; the CSC percentage is 15.

h. Cost-of-living increase possible in February 1972 for retirees.

Around the table:

[REDACTED]
Discussed CS portion of IWA; thinks the Country Team instruction should be taken out.

[REDACTED] Mentioned [REDACTED], 6 - 9 August.
Three Commo officers to go to [REDACTED] to discuss Commo between Headquarters and [REDACTED] concern about security.)

Developing a rather puzzling relationship with FSI's Romance Language Department. We like what they're doing; they don't appear to be interested in anything we are doing. Relationship with Swedish Department is different. LS is giving that Department course materials for Swedish instruction.

25X1A

[REDACTED]

Asked about policy on summer employees taking leave. Comment: there is no policy but there is a practice for allowing it.

Mr. Cunningham wound up the meeting by describing his meeting with [REDACTED] on the guest speaker problem, and [REDACTED] will take up the DTR's position that it "serves no useful purpose" to have him be the recipient of requests. Note: I think the DTR said he brought the memos back.
